Senator Hawley Calls for Fauci Resignation Over Gain-of-Function Research in COVID-19 Origins

MR. HAWLEY. Thank you, Madam Chairwoman. I rise today to ask unanimous consent to introduce a resolution calling for the resignation of Dr. Anthony Fauci, the director of the National Institutes of Health, for his role in funding gain-of-function research in Wuhan, China, that may have caused the COVID-19 pandemic and for his attempt to cover up that research and its role in the origins of the COVID-19 pandemic.

But, yes, undoubtedly the most powerful and effective Soviet agents of influence in the post-WWII USA were named Joe McCarthy, Edward Teller, and James Jesus Angleton. 2/END

@HeerJeet

The only thing I would add to that is that the USSR had its own counterparts to McCarthy, Teller & Angleton -- people who bungled and self-sabotaged their own intelligence gathering.
